U.S. DISTRICT COURT
E. DIST. OF ARKANSAS

In The United States District Court

for the Eastern District of Arkansas

Pine Bluff Division.

U.S. DISTRICT COURT
EASTERN DISTRICT ARKANSAS
FILED

SEP 26 2007

BY:

JAMES W. MCCORMACK, CLERK
DEP CLERK
[Signature]

David Felty #95976-Plaintiff-

v.

Civil Action No. 5:07 cv 231

Arkansas Department
of Correction, et al. - Defendants -

- Motion To Amend Per Court Order -

CMS is responsible because: 1) Inadiquit medical care because medication and treatment was not provided to me as it should have been so I did not suffer ~~and~~ pain. 2) CMS is my healthcare provider. 3) Because staff was aware of the problem issues through sick call and grievances and did not continue to do follow-up in concerns to medicine to prevent pain and suffering. 4) Staff did not through there grievance procedure note date's for follow-up, or recommendation's, all causing delay in treatment and medications, causing further pain and suffering. 5) Once x-ray's were re-performed that denoted a substance that is irregular the two(2) occlusal's were sent to Dr. Burnett and CMS did not regain control of these two(2) occlusal's per my request, CMS simply stated that they ~~asked for the~~ two (2) occlusal x-ray's back and that Dr. Burnett's office was sending them, a little over two year's has elapsed and still the two (2) occlusal's have not been returned to my medical file so that I can try to have a second opinion, Grievance # MX 05-01339. 6) CMS has been indifferent to my

— page 2 of 3 —

medical care deliberately causing me pain and suffering, still the problem stone remains and not only is there pain continuously but there is a septic smell where infection is and it has infected other part's of my mouth and there is some drainage from the Whartons Duct.

Max Mobley is responsible because: 1) Max Mobley was the Director of my health care provider, the top person in authority and did not respond to my grievance from 8/9/00 till 3/26/04, a process that per Administrative Directive 07-03 "Inmate Grievance Procedure" is not suppose to take longer than (76) days to finalize unless a valid extension has been executed. All causing pain and suffering due to the delay in medical treatment and un-professionalism in his response by stating that there is no merit to my appeal being the stone is removed from the gland, where in fact the gland (submandibular) was taken out, yet the problem stone still remains.

a) No follow-up consultation with me was performed to see if in fact the stone was removed and issue addressed, this after my wait of 8/9/00 to 3/26/04 for his reply because he state's he lost my grievance in his office while I suffered.

3) I believe this to be deliberate indifference, a free-world provider would have consulted with me, especially where a issue arose and a grievance was written, Administrative Regulations # 833 Subject: Health Services note's that there health care provider (I.U. Definitions A), B), C), and D)) follow All these guidelines.

4) Policy and Proper Procedures were not followed by Max Mobley in my health care, he could have seen that I was placed on proper medication and given Adiquit treatment and follow-up all

— page 3 of 3 —

throughout this process, yet this did not happen.

5) My appeal did have and still does have merit, the problem stone is still there and infection still persists with some drainage of the Wharton's Duct, the Wharton's Duct is inflamed and putting out a septic smell, pain and discomfort also infection has moved to other areas of the mouth.

I further state that all statements contained herein are true to the best of my knowledge, information and belief.
